Platinum Medical Imaging Announces Equipment Sales & Field Service Expansion Plans

Deerfield Beach, FL, June 6, 2011- A leading provider of aftermarket [GE] CT & MRI equipment, parts and services, Platinum Medical Imaging announces new expansion plans, designed to provide complete imaging equipment sales and field service support to physicians in Texas and other areas in the southern region of the U.S.

The much anticipated news to expand the company's offerings to this region is supported by a new team of experts that have recently joined the company. With over 25 years of experience in strategic growth plans and OEM certified field service engineer work; the new team will continue to drive the company's mission to providing high standards for quality and value in service and technical support to healthcare providers in this area.

"We are excited for this expansion and for the opportunity to enter a new territory that will help bring an economical alternative to facilities seeking to optimizing workflow," said Robert Costa, Chief Operating Officer at Platinum Medical Imaging. "At Platinum Medical Imaging, exceptional service is the cornerstone of our business. Every day, we strive to support our customers' goals of enhancing patient care by adhering to our strict quality processes that have been structured and certified to meet ISO 9001 and 13485 standards."

With the company's present growth rate, the new plan will offer imaging centers and hospital administrators with more opportunities to purchase affordable, high quality imaging systems, turnkey solutions and flexible service contracts from one of the industry's most trusted and reputable service providers.

"Entering this territory is very significant as it demonstrates our ability to achieve greater levels of growth and industry leadership by providing aftermarket medical solutions that will help facilities in this area to increase their savings without compromising the overall delivery of patient care," said Jeff Fall, President at Platinum Medical Imaging.
